SPECIAL COMMITTEE OF COUNCILS VS. BOARD or HEALTH.—The Special Committee of Councils appointed to examine into the alleged abuses in the Board of Health office, held a meeting last evening, when several witnesses were examined, who tesuined that they had paid money to certain parties for privileges re-lating to the continuance of their legitimate business. It was alleged that the amounts thus paid were illegal charges. The party who had exacted these illegal sees has since been discharged from the employment of the Board. The hearing of evidence was continued until a late hour. The last move of City Councils in rela-tion to sanitary measures has been an ordinance providing for the appointment of ten Health Inspectors for three months, at a cost of \$5000. They propose to transfer this amount from the \$15,000 appropriated at the commencement of the year for the suppression of misances, the officers of the Board of Health having assured Councils that \$10,000 would be sufficient for that purpose. The measure has already passed Common Council, but its consideration was postponed in Select Council last Thursday.

THE FIRE ALARM TELEGRAPH.—The Fire Alarm Telegraph is a most useful and convenient auxiliary, and the municipal authorities are disposed to extend its advantages to the rural districts. They have appropriated the sum of \$3350 to extend a wire from the office at Fifth and Chesnut streets to the bonse of the Union Engine Company, at Ristog Sun, and place a signal apparatus in the house of said company from thence to the house of the Franklin Steam Engine Company, in the Twenty-second Ward, and place a gong instrument therein; from thence to the house of the Fellowship Steam Fire Engine Company, Germantown. It is also to extend to the Falls of Schuylkill, and, inasmuch as there is no fire company at that place a signal apparatus is to be placed at the fac tory of John Dobson, to which both police and citizens are to have access at all times during fire. The wire is also to connect with the houses of the Washington Steam Fire Engine Company, at Frankford, and the Manayunk Steam Fire Engine Company, in both of which gong instruments will be placed.

THE FURTHER EXTENSION,-In pursuance of the sixth section of an act appropriating ground for public purposes in this city, approved 26th of March, 1867, the Commissioners of Fair-mount Park have been empowered and authorized, for the purpose of extending said Park, to take possession of all that piece of land, with the buildings thereon erected, on the east side of the river Schuylkill, and lying between the Spring Garden Water Works and the Columbia bridge, and between the Reading Railroad and the river Schuylkill, which is directed to be laid out and maintained as an extension of Fairmount Park, for the health and enjoy-ment of the people, and the preservation of the purity of the water supply of the city. This is quite a valuable acquisition of property.

A VETEBAN COMPANY of the 14th Regiment of Brooklyn, N. Y., will arrive in Philadelphia on Monday. The company numbers about sixty They will be accompained by a first-class band, and while in this city will be the especial guests of the National Guards, Colonel Lyle, They fought side by side with the Guards during the recent Rebeilion, and rendered efficient aid in maintaining the power and glory of the good old flag. Mrs. John Drew has tendered the entire parquet of her theatre to the National Guards and their distinguished guests for Mon-day evening. The Mayor of Brooklyn and several other public functionaries accompany the famous 14th.

Took Leg Bail .- James Poyner, the young man who cut the throat of his cousin, a few months ago, in the lower part of the city, and attempted to destroy his life by cutting his own throat, and who was taken to the Pennsylvania Hospital while suffering from the injuries thus inflicted, escaped from that institution on Thursday by jumping over the wall. He was to have been discharged in a few days, and was im-pressed with the idea that he would be immediately arrested and imprisoned for the injuries inflicted on his cousin. The young woman in question has recovered from her wounds.

GRAND JURY PRESENTMENT .- Yesterday the Grand Jury for June sustions made a present-ment to the Court. 654 bills have been acted upon, 381 returned as true bills, and 273 were ignored. Of the 654 bills acted upon, 253 were for the violation of the laws relating to the sale of liquor, leaving 401 bills upon other charges. Of those relating to the sale of liquors, 218 were returned as true bills and 35 ignored, and of those on other charges, 163 were returned as true bills and 238 ignored.

THE SHARES of the Washington Library Company are being disposed of with unexampled rapidity at the principal office, No. 1225 Chesnut street. The absence of all concealment, the honesty of purpose manifested by those who first inaugurated the enterprise, the fairness with which the proposed final distribution is to be conducted, and the patriotic purpose to which the entire surplus is to be applied, have taken firm hold upon public confidence. So large have the sales been thus far that the trustees hope to anticipate the time originally fixed for the dispensation of the gifts, amounting to \$300,000, thus placing the funds collected much sooner than they expected in a channel to carry out the noble act of benevolence which was the object of their enterprise. All those, therefore, who desire to participate with them in the pleasure of doing a good action should subscribe without delay. They will receive at once a fine engraving, worth at retail more than the money invested, besides a gift of such value as their share may be entitled to in the final distribu-

CAPE MAY.

CAPE ISLAND, NEW JERSEY.

Since the close of 1866 much enterprise has been displayed at this celebrated sea-shore resors. New and magnificent cottages have been erected; the Hotels have been remodelled; a fine park, with a well made one mile drive, has been inaugurated; and in all the essentials of a popular summer resort, a spirit of improvement is largely manifested.

The geographical position of Cape Island is in itself a popular feature, when properly understood. Situated at the extreme southern portion of the State, an occupying a neck of iand at the confinence of the Delaware Bay with the Atlantic Ocean, it become entirely surrounded by sait water, hence favored be continual breezes from the sea.

The built furnishes a beautiful view of the Oceas Delaware Bay, and picturesque back country, taking in Cape Henlopen distinctly at a distance of sixteer miles. The beach is acknowledged to surpass an other point upon the Atlantic coast, being of a smeoth compact sand, which decilines so gently to the surthat even a child can bathe with security. Added to these attractions is the fact that the effect of the Gulf Stream upon this point renders the water comparatively warm—a point not to be overlooked by persons seeking health from ocean bathing.

The distance from Philadelphia to Cape Island is stimiles by rail, and about the same distance by steamer down the Bay, and by either route the facilities for travel promise to be of the most satisfactory character. The Island has Hotel and Boarding-house accommodations for about ten thousand persons. The leading Hotels are the Columbia House, with George J. Bollon as proprietor; congress Hail, with J. F. Cake as proprietor; and United States, with West and Miller as proprietor; and under the management of gentlemen who have well-established reputations as hotel men.
